

Infrastructure Leadership Dashboard

Ardent ISD | Q1 2026-27

Executive Status

Area	Status	Indicator	Leadership Interpretation
Internet / WAN	Green	Primary peak 61%; secondary path tested	Capacity currently adequate; continue growth monitoring.
Wireless	Yellow	AHS/NRMS ticket trend elevated	Validate density and lifecycle; phased refresh planning underway.
Student devices	Yellow	29% entering year 5	Replacement funding must remain protected.
Staff devices	Green	85% within planned lifecycle	275 replacements scheduled.
Help desk	Yellow	86% first-response SLA	Improving after August surge; target is 90%.
Critical systems	Green	Core services stable	Dependency map update scheduled.
UPS / MDF-IDF readiness	Yellow	22 batteries due; 2 rooms need environmental review	Coordinate facilities and technology work.
Major projects	Green	3 on track; 1 watch item	Wireless modernization is the primary watch item.

Key Performance Indicators

- Network availability: **99.96%**
- First-response SLA met: **86%**
- Student devices within planned lifecycle: **71%**
- Inventory records with verified replacement year: **94%**
- Critical systems with documented business owner: **100%**
- Scheduled backup/restore validations completed this quarter: **92%**

Major Projects

Project	Status	Next Milestone	Decision / Risk
AHS wireless modernization	Watch	Finalize validation and procurement path	Confirm scope, lifecycle cost, and implementation window.
Year-5 student device refresh	On track	Finalize quantities by campus	Protect budget allocation.
Help desk seasonal readiness	On track	Draft August surge plan	Determine temporary staffing/support model.
Critical dependency mapping	On track	Business-owner validation	Cabinet signoff before next tabletop.

Decisions Needed This Quarter

1. Approve planning range for AHS wireless modernization.
2. Confirm five-year replacement plan assumptions for student devices.
3. Assign facilities owner for MDF/IDF environmental remediation.
4. Approve SLA review cadence and quarterly reporting format.

What This Dashboard Does Not Show

This dashboard intentionally avoids sensitive configurations, credentials, detailed network diagrams, incident information, and other restricted operational data. Executive reporting should communicate status and risk without exposing unnecessary technical detail.
