

9-12 SCIENCE

GETTING TO KNOW YOU!

Science is about inquiry, evidence, systems, experimentation,
and understanding the natural world.

1 A scientific phenomenon
I'm curious about:

2 The science course or
field that interests
me most:

3 A lab skill I feel
confident using:

4 A science concept
I want to understand
better:

5 A real-world science
issue I care about:

6 A scientist or STEM
innovator I admire:

7 A science career
I'd like to explore:

8 A question I would
investigate if I had
my own lab:

9 One way science
connects to my life:
